EARTH  
OBSERVATORY  
OF SINGAPORE

An Institute of Nanyang Technological University

## Our Mission

EOS conducts fundamental research on earthquakes, volcanic eruptions, tsunamis and climate change in and around Southeast Asia, toward safer and more sustainable societies.

We aspire to make earth science relevant to the improvement and the quality of people's lives. The Observatory connects with individuals and institutions that prepare and build resilience in Southeast Asian communities through a better understanding of advances in Earth science.
